ALEXANDRIA

The office desk houses a sophisticated cable management system that keeps cable clutter hidden from view. The integrated power strip, which runs through the desk's floorboard, provides both the user and guest access to power outlets and computer ports (custom power strips available).

Depending on your office size, there are two desktop sizes (2.6 and 3.6 m wide) to suit your needs. There are a variety of modular, independent storage units that can be arranged in several configurations. Units include wardrobes, bookshelves, and cupboards (triple-door and quad-door available).

Alexandra is a series designed to reflect a sophisticated, mature personality and traditional Chinese culture. Bookcase features doors with a thin aluminum frame, flexible shelves that hang from the backboard, and modern LED lighting. Versatile, chic coffee table solid construction complements the anchored presence of the desk.
